Leveraging the EHR for your Research: Opportunities, Challenges and Concrete Approaches
G Level, Nutrition Education Building Commons Conference Rooms 1-3
Thursday, April 19, 2018
1:00-4:00 pm

Kristina Henderson Lewis, MD, MPH – Assistant Professor, Public Health Sciences, Epidemiology and Prevention
Elizabeth T. Jensen, PhD – Assistant Professor, Public Health Sciences, Epidemiology and Prevention
Kristen Lenoir - Programmer/Analyst II, Biostatistical Sciences
Brian J. Wells, MD, PhD – Associate Professor, Public Health Sciences, Biostatistical Sciences

This workshop will provide an overview of how electronic health record data can be leveraged for advancing clinically-relevant research questions. The strengths and limitations of these data will be discussed as well as WFBMC institutional resources for accessing and utilizing these data. Small group activities will enable participants to develop a research question that may be informed by the use of these data. Clinicians, clinician scientists, residents, and fellows are encouraged to attend.

Please preregister by April 17th by scanning the QR code or clicking here.
